964.010240C : Hose clamp to secure oil and A.C. lines, 1100 x 22 x 15 mm.

Our **hose clamp with a rubber sheathing to secure oil and air conditioning coolant lines with dimensions 1100 x 22 x 15 mm.** has several uses in the Porsche parts program.

1. For the **Porsche 911 S 2.4 L (1972)** this support clamp is used in the following application (quantities required per vehicle for each application are given between parentheses):

- as a support clamp for the inbound / outbound oil lines from / to the front oil cooler (3) ;

2. For the **Porsche 911 S 2.4 L (1973) + 911 Carrera 2.7 L (1973-75)** this clamp is used in the following application:

- as a support clamp for the inbound / outbound oil lines from / to the front trombone-shaped oil cooler (3) ;

3. For the **Porsche 911 2.7 L (1974-77) + 911 S 2.7 L (1974-77) + 911 Carrera 3.0 L (1976-77)** this clamp is used in the following application:

- as a support clamp for the coolant hose between the air conditioning compressor and the A.C. condenser (1) ;

4. For the **Porsche 911 2.7 L (1974-77) + 911 S 2.7 L (1974-77) + 911 Carrera 3.0 L (1976-77) + 911 Turbo 3.0 L (1975-77)** this clamp is used in the following application:

- as a support clamp for the inbound / outbound oil lines from / to the front trombone-shaped oil cooler (2) ;

5. For the **Porsche 911 SC 3.0 L (1978-83) + 911 Turbo 3.3 L (1978-83)** this clamp is used in the following applications:

- as a support clamp for the inbound / outbound oil lines from / to the front trombone-shaped oil cooler or radiator (1) ;
- as a support clamp for the coolant hose between the air conditioning evaporator and the A.C. compressor (2) ;

6. For the **Porsche 911 Carrera 3.2 L (1984-86) + 911 Turbo 3.3 L (1984-86)** this clamp is used in the following application:

- as a support clamp for the coolant hose between the air conditioning evaporator and the A.C. compressor (2) ;

7. For the **Porsche 911 Carrera 3.2 L (1987-89) + 911 Turbo 3.3 L (1987-89)** this clamp is used in the following applications:

- as a support clamp for the coolant hose between the air conditioning compressor and the A.C. condenser (2) ;
- as a support clamp for the coolant hose between the two air conditioning condensers (2) ;

8. For the **Porsche 964 Carrera 2 / 4 / RS (1989-1994) + 964 Turbo 3.3 L / 3.6 L (1991-94)** this clamp is used in the following application:

- as a hose clamp to support the crossover oil pipe running from the engine crankcase to the oil filter console (1) ;

9. For the **Porsche 964 Carrera 2 / 4 / RS (1989-1994)** this clamp is used in the following application:

- as a clamp fitted to the support bracket that is screwed to the N°1 cylinder intake manifold stack (1);

10. For the **Porsche 996 GT3 3.6 L (1999-05) + 996 GT3 RS 3.6 L (2004)** this clamp is used in the following applications:

- as a support clamp for the oil return line to the oil filter console (1) ;
- as a support clamp fitted onto the engine carrier plate (1) ;

11. For the **Porsche 924 Turbo (1980-84) + 924 GT (1981)** this clamp is used in the following application:

- as a support clamp for the oil lines for the turbocharger oil separator (2) ;

12. For the **Porsche 970 Panamera 3.6 L (2011-12) + Panamera 4S 4.8 L (2010-12) + Panamera Turbo / Turbo S 4.8 L (2010-12) + Panamera Diesel 3.0 L (2012) + Panamera Hybrid 3.0 L (2012)** this clamp is used in the following application:

- as a support clamp for the oil return line from the oil tank to the power steering oil cooler (1) ;

Note: this part is sold individually.
